Dear Andrew,

**Your support will be a game changer in the future of healthcare!**

You have been our Lab Partner for over 11 years. The Malaghan Institute is developing world-leading research focused on finding better treatments for cancer, asthma, and allergies. This research is only possible because of you, who believe in our work and have chosen to walk with us. Thank you, Kinetics Group Ltd.

Your unwavering support has helped make significant progress in translating our research into real outcomes for patients – a bench to bedside philosophy that has led to clinical trials of dendritic cell based vaccines for types of cancer, and also treatments for asthma, allergy and multiple sclerosis. We are excited to be a pioneer of immunotherapy-based solutions.

I hope you are proud of your contribution to the world's scientific knowledge in immunology, helping advance the discovery of promising new therapies that have the potential to overcome these devastating diseases.

With gratitude,

A handwritten signature in black ink that reads 'Graham Le Gros'. The signature is written in a cursive, flowing style.

Professor Graham Le Gros CNZM FRSNZ FRCPA (Hon)  
Director

**Research is our journey. Cure is our destination.**
